Whitby Green Standard

As of September 28, 2020, the Town approved the [Whitby Green Standard](#). All new Site Plan and Plan of Subdivision Applications are required to follow the Whitby Green Standard and meet at a **minimum** Tier 1- Mandatory Performance Criteria as outlined in the respective **Site Plan Checklist** and **Plan of Subdivision Checklist**. This checklist will need to be completed and submitted as part of a complete Development application in addition to a stand-alone **Sustainability Rationale Report**.

It is encouraged that consideration be given for advanced sustainability criteria through the uptake of voluntary Tiers 2-4. These standards support sustainable site design for development and redevelopment on public and private property, enhancing the Municipality's natural heritage, economic vitality, cultural heritage, and social aspects.

Sustainability Rationale Report

To support compliance of the Whitby Green Standard, we recommend that the Sustainability Rationale be submitted in the following format:

1. **Executive Summary:** Overview of the project and declaration of performance tier commitment.
2. **Purpose of the Application:** Detailed description of the project.
3. **Sustainability Overview:** Summary of the project's sustainability vision and objectives.
4. **Sustainability Declaration:** Provide the performance tier that will be achieved by the project.
5. **Mandatory Performance Measures:** List all mandatory performance measures and their related reference document(s) in a table format.
6. **Voluntary Performance Measures:** Where a higher performance tier is being pursued, list all core, voluntary performance measures, and their related reference document(s) in a table format.
7. **Innovation:** If applicable, provide an overview of any innovation performance
