The Mid-Block Arterial Road
Class Environmental Assessment Study

The landowners group, in partnership with the Town of Whitby, has initiated a Schedule C Municipal Class Environmental Assessment (MCEA) for the Mid-Block Arterial road extending between Cochrane Street and Thornton Road.

Why is this study being done?
The Mid-Block Arterial road is recommended to provide east-west servicing and access, as well as, additional volume capacity for central and north Whitby to support future area growth.

What will be presented at the Community Open House?
The purpose of the Community Open House (COH) is to provide an overview of the project and will present:
- Background information from the 2017 Brooklin Transportation Master Plan and other studies;
- Preliminary Mid-Block Arterial road alignments;
- How the road, intersections, and bridge alternative designs will be evaluated.

When is the Community Open House being held?
Community participation is a key component of the Class EA process. We encourage you to attend the first of two (2) Community Open Houses (COH) for this Class EA study. The first COH is scheduled for:

Wednesday, December 11, 2019 – 6 p.m. to 8 p.m.
Location: Brooklin United Church
Address: 19 Cassels Road East, Whitby

Representatives from the Town and the consulting team will be available to provide information and answer questions. The COH will be conducted in an open house (drop-in) format with display material available for review.

We welcome your insights and comments throughout the study
Email your comments to MidblockEA@tmig.ca
