Notice of Study Commencement and Public Open House No. 1

Environmental Assessment - Dryden Boulevard Extension (from Deverell Street to Thickson Road)

The Town of Whitby is undertaking an Environmental Assessment (which will hereafter be referred to as “the Study”) to examine the extension of Dryden Boulevard from Deverell Street to Thickson Road to accommodate the anticipated growth in the area.

Figure 1 - Study Area
The Study is being carried out in accordance with the planning and design process for ‘Schedule B’ projects as outlined in the Municipal Engineers Association "Municipal Class Environmental Assessment" document (October 2000; amended 2007, 2011 and 2015), which is approved under the Ontario Environmental Assessment Act. However, for this Study, a higher level of consultation will be conducted which is sufficient to meet the more stringent consultation requirements for a ‘Schedule C’ project.

Public consultation is a key component of this Study so two Public Open Houses (POH’s) will be held. The project team will meet with the public at these meetings to present the project details, key findings, and to address any public comments and concerns.

The first POH is scheduled as follows:

Date: Thursday, June 29, 2017
Time: 6:00 p.m. to 8:00 p.m.
Location: Town of Whitby Municipal Building, 575 Rossland Road East, Whitby

This POH is intended to introduce the Study to the public and to obtain their initial input. All interested residents are invited to attend this POH to share their ideas and concerns on this project. If you cannot attend this POH but wish to obtain information about this Study, all project information will be available for review on the Town’s website at Current Studies. Please submit your comments to either one of the following team members:
